Partnership projects receive additional 5 points from the Programme Operator in the content-related assessment of the application. Partnerships are not obligatory.

One of the tools that are to enhance partnership cooperation is known as the Bilateral Fund (BF). The Programme Operator earmarks the amount of EUR 176,471, that is PLN 745 219 from the Programme's budget for the BF during the implementation of the Programme.

The amount of EUR 158 824 (that is 670 697PLN) of the total Programme's budget for the BF shall be earmarked to be used by the Final Beneficiaries.

This amount shall be available for the purposes of networking, exchange, sharing and transfer of knowledge, technology, experience and best practices among the beneficiaries of the projects and entities from Norway.

The amount of EUR 17 647 (that is 74 521PLN) shall be earmarked for activities initiated by the Programme Operator in line

with Annex II to the Programme Agreement. Should the amount earmarked for the implementation of the BF resources not be fully used by the Final Beneficiaries in the call for proposals, the remaining amount is to be allocated to activities initiated by the Programme Operator.

The Programme Operator does not envisage a separate call for proposals for activities financed from the BF. The application form contains sections to be completed by those applying for BF funds.

The list of activities eligible for funding under the BF should be consistent with the provisions of Article 7.7 point 1 of the Regulation on the implementation of the Norwegian Financial Mechanism (NFM) 2009–2014:

Negative assessment of the measures proposed by the Applicant in the BF is not tantamount to a negative evaluation of project measures and does not impose rejection of the application in course of the content-related evaluation. The decision about not granting the financing for project measures means a negative decision in relation to the proposed BF measures.
